

REMARKS

Claims 32-35 and 37 were rejected under 35 USC 103(a) as being unpatentable over Payan et al. In response, said claims have been canceled. New claims have been introduced with further limitations beyond those disclosed in the cited references. For example, independent claim 38 reads that there is a stand configured to be folded in half and also is configured to house extended legs and the display panel. Unlike cited references, the present invention as claimed is not a fixed sign that remains atop an automobile. As reflected in the claims, the present invention has a unique stand that allows the display panel to be stored.
